HISTORY OF THE

NEW ENGLAND OCEANEERS

1974-1977

In their inaugural season as a professional team in the American Soccer League, the Oceaneers walked off with the championship after three exciting play-off games against the powerhouse New York Apollo.

Since that time, the Oceaneers have always played a first-class brand of soccer pulling in players from many corners of the world. To name just a few: Eddy McReadie, current manager of Chelsea, an English 2nd division club, and former captain of the Scottish National team; Manfred Schellscheidt, one-time head coach of the United States National team; Mohammed Attiah, formerly of the Ghanaian National team, who has excited the crowds in R.I. for three years; Telmo Pires and Altino Domingues, both members of the U.S. Olympic team, and Vitor Gomes, dynamic striker from the Portuguese National Team.

The Oceaneers will continue to present this first-class brand of soccer to their fans throughout the many years to come.

The team and its management have been through an extensive re-building period and the emphasis for 1977 will be on youth development and the inclusion of more local talent on the roster.

The Oceaneers are still the only major league professional sports team to play out of R.I., an honor they have held since their reception in 1974.
